From the Washington Union. THE TRIUMPH OF TRUTH.

these tables to the Secretary, and it is the duty charges against the Secretary of the Treasury, great PRINCIPLE OF LIBERTY AND EQUALITY. President alias King. And they seem to take with regard to the state of things in this town, from his gesticulations, reckless of broadcloth. of the Secretary by law to communicate the tn- and scattered them to the winds. We trust This gave them victory. They richly deserve a strange kind of pleasure in predicting this The Advertiser knew that it was a mistake, to that is, if such a piece of elegant superfluity or bles thus certified to Congress. The Secretary, that the assailants of the administration will, by all the filial outpourings offered up so lavishly evil destiny. Reeps none of the books from which these tables this time, have learned that it is safest for them on the birth-day of our nation. bles from the books in his own office, and to and facts. by Congress. On this point the law is quoted, its present accomplished Secretary. discovered a single error in these tables, but the large payments from the treasury made in directly on the ballot-box. In short, they only ico. Congress-instead of the usual period, the Soth consummate ability defy them all. of September and the end of a quarter. This grew out of the fact that Congress made the first year of the operation of the new tariff commense on the 1st of December, 1840, and close on the 1st of December, 1847, instead of the 1st of October, 1847, as recommended by the Secretary, of the Treasury, Mr. Walker, in his him to Congress in February, 1846. The difficulty growing out of the closing of the first year's operation on the 1st of December was foreseen by the Secretary; and he therefore recommended at the time that the operation of the bill should commence on the 1st of October, and close the 30th of September. Out of this grew the mere elerical error committed-not in fact by the Register, but by his principal clerk who prepared this table, who is a very experienced and able clerk, whose business it has been for nearly thirty years to prepare these tables, and who now is, and always has been, a member of the whig party. His error grew out of the immense pressure in bringing the tables down to the 1st of December, and the middle of a quar-

The errors of the committee are then shown and proved-being sixty-four in number, and exceeding thirty-three millions of dollars.

They then examine the charge of the committee against the Secretary, of making a defective return of certain portions of the public debt, &c., as required by the net of 28th of January, 1817, and show that the committee had entirely overlooked the Secretary's report of 13th of December, 1847, in which this very information is given in full detail, and in its proper place; this report covering 429 printed pagesbeing House document No. 7.

A contrast is then given between the operations of the treasury during the war, of 1812, ing to said District. and the Mexican war; during the former the defaults being numerous, and during the latter no defaults whatever; and the Secretary of the during the war of 1812. It is shown, also, that before the Convention.

THE EXODUS OF MR. GREELY. The Philadelphia Bullitin gives the following humor-

As the labors of the convention drew to a close it became evident that Gen. Taylor was to be the nominee. Greeley groaned in spiritnot for he could not believe that a Whig Convention would nominate any other but Henry chairman announced-For Gen Zachary Taylor, 171 votes.' He heard no more—the deed was done-and Horace, no doubt, mentally exclaimed, but with more truth than the inhespitable Scotchman, 'Thou caust not say I did it.'

Late the same afternoon, Mr. Greeley was seen running down Walnut street at locomotive speed, his coat tails standing out at an angle of forty five degrees. The ends of both legs of h's pants were concealed in his boots—the buckle carried his carpet bag by one of its handles, and as it was (of course) unlocked, an opportunity was afforded to ascertain the nature and extent

He reached the wharf and exclaimed, cally

use or leave their sharp-edged tools. Many people will, just as soon as any way, leave an axe, adze, hatchet, shave, or other sharp-edged oxe, adze, hatchet, shave, or other sharp-edged tool, with the edge sticking up, or our, so that those who may favor us with a call at prices so acceptable that they will be induced to purchase.

We would respectfully invite Mr. Hall's former customers and the public generally to call and exnervous every time we see a tool that way- amine for themselves. and cannot rest until we have given it another direction. Why can not those who use such Coats, Beans, Corn, Ryc, Pelts, Butter, Cheese, Eggs, tools be more cautious in this respect?

Oats, Beans, Corn, Ryc, Pelts, Butter, Cheese, Eggs, Shingles, Clapbourds, &c. &c.

LEAD PIPES. Doctors Wood and Beach, in the "United States Dispensatory" for 1847, when treating of the properties of lead, give the following caution: "Water should never be kept in leaden cisterns on account of the risk of dissolving a small portion of the oxide of lead.—

ESPECTFULLY informs her old customers and the public generally, that she has just received a good assortment of fushionable and purity of the water." This subject of lead STRAW, SILK, MOURNING, & FANCY pipes is attracting considerable attention at the present tine in this city. A long discussion has ate water in Boston. Doctors Wood and Beach have ever been held in bigh authority, and if what they state, as above, is correct, it would appear to be highly improper to use lead pipes Wills for house distribution. [Scientific American.

A HOME PAPER! WILL THE PEOPLE SUSTAIN IT?

The Northern Pioneer. DEVOTED TO PURE LITERATURE AND POPULAR REFORM.

N the first of July the subscriber proposes to issue, in the city of Portland, a weekly jour nal, to be called the Northern Proneer—the title being significant of the character it is designed to sustain. He is led from various evidences to believe that a "Pioneer" in the fields of chaste and instructive Literature—in the progress of moral elevation and mental development—is demanded by the interests of the people of our State. A very generous patronage is now afforded by our citizens to the innumerable and excellent periodicals of our contemporaries abroad, which, it is believed, would be bestowed upon a high-toned and entertaining literary production in our own midst. The Pioneer is intentowed upon a high-toned and entertaining literary production in our own midst. The Pioneer is intended to fill a vacuum in the publications of Maine—to supply a want, which is every where felt and expressed, for an independent literary journal, of a sound and elevated character;—not a punderer to vitiated taste or perverted sense—not a medium for silly sentimentally and manufactures to the a purpose. taste or perverted sense—not a medium for silly sen-timentalism, and meaningless tales; but a paper which shall represent the prominent spirit of the times—which shall be worthy of the age—worthy of the people whose interests it is designed to promote —commending itself to the liberal and thinking minds of all portions of the community.

The Pioneer will be the organ of no clique or fac-

The Froncer will be the organ of no clique or fac-tion—serving no party or sect; but laboring assudi-ously for the promotion of the highest good of the PEORLE, of all classes—having sympathy with nu-MANITY, in all its phases—speaking boddy for what may be deemed the nutur, with no claim to infalli-bility of judgment, and feurlessly condemning the WRONG, wherever found. It will be emphatically

A PAPER FOR THE PEOPLE.

Affording in its columns an usement, practical knowledge, and pleasing instruction, and blending the scrious and profitable with the hamorous and gay.

The Pioneer will be published on a large sized sheet, in quarto form, and will contain tringery-two wide columns of closely printed matter. In mechanical execution, it will surpass in neatness and beauty any publication in the State; making at the close of the year a valuable and elegant volume for preservation and binding. It will be afforded to subscribers at the low price of \$1,50 per annum in advance—\$1,75 if poid in six months, or \$2,00 at the expiration of the year. Any person forwarding the names of six responsible subscribers, shall receive one copy gratis.

Portland, June, 1848.

MENTOR DESCRIPTION OF THE PROPERTY AND ILLAWS TO THE PROPERTY OF THE PROPERTY OF

CONSUMPTION CURED! TRIUMPHANT SUCCESS OF BUCHAN'S

Hungarian Balsam OF LIFE.

THE GREAT ENGLISH REMEDY FOR COLDS, COUGHS, ASTHMA, AND CONSUMPTION!

for Colds, Coughs, Asthma, or an form of Pulmonar Consumption, is the Hungarian Bulann of Life, discovered b Dr. Buchan of London, England, test for upwards of seven cars in Great Britain and on the continent of Europe, and introduced into the United States, under the impediate superintend since of the inventor. For Grinding the same suitable for Prov-

ence of the inventor.

The astonishing saccess of the Hungarian Balsam, Also, for grinding Bark, Apples, Sumach, Plaster, &c. &c.

Plaster, &c. &c.

Plaster, &c. &c.

The astonishing success of the Hungarian Balsam, in the cure of ever form of Consumption, warrants the American Agent in soliching for treatment the worst possible cases that can be found in the community of the kind, in Compactness, Durability, Uniformity of its Work, and Economy of Power. Its height, when set up for use, is twite-televen inches, which is much less than the common vertical machine. It will wear (with the same usages) longer than three of those new in use, and grind the Corn

TA Cure for Life Secured. DR.
